

HUMAX[®] LIQUID

PRODUCT INFORMATION

HUMAX contains humic acids extracted from leonardite.

HUMAX can be used as a soil application. It may enhance micronutrient uptake by plants. Humic acid is the major constituent of humus. **HUMAX** promotes the conversion of a number of essential plant nutrients into available forms by chelating with the nutrients.

HUMAX and its derivatives, in small amounts, increase the permeability of cell membranes and hence promote the uptake of nutrients by plants. The colloidal nature of **HUMAX** allows it to absorb a large quantity of water molecules and hence increases the water holding capacity of soil.

HUMAX can be applied to ALL crops including all vegetables, potatoes, carrots, onions, all berries and strawberries, all brassicas, all fruit trees, avocados, persimmons, citrus, all nut trees, vineyards, kiwifruit, tropical fruit, lettuce, asparagus, all melons, beans, ginger, ornamentals, cut flowers and pastures.

GUARANTEED ANALYSIS

Active Ingredients:

12% Humic Acids (derived from leonardite)

Inert ingredients.....88%

CONTAINS NON-PLANT FOOD INGREDIENTS

COMPATIBILITY

Always perform a compatibility test before mixing any products with **K-FORTE**.

K-FORTE is **INCOMPATIBLE** with trace elements, Magnesium, and Calcium foliar nutrients.

WARNING

Harmful if swallowed.

PRECAUTIONS

Keep out of reach of children. Read label before use.

Wash hands after handling and do not eat, drink or smoke when using this product.

If medical advice is needed, have product container or label to hand.

IF SWALLOWED: Rinse mouth. Call a POISON CENTRE or doctor if you feel unwell. Rinse mouth. Dispose of contents/container in accordance with local regulations.

24-hour emergency number: 0800 764 766 (NZ Poisons Centre)

Approved Pursuant to the HSNO Act 1996, under the Fertilisers – Subsidiary Hazard group standard HSR002571. See www.epa.govt.nz for approval conditions.

SOIL APPLICATION

Apply 8 - 12L / ha of **HUMAX** depending on crop's requirement.

HUMAX can be applied through sprinkler irrigation. Apply **HUMAX** halfway through the irrigation cycle.

COMPATIBILITY

HUMAX is compatible with most fertiliser solutions, biological and enzymatic formulations and pesticides. Check the compatibility before mixing.

Always perform a compatibility test before mixing any product with **HUMAX**.

Do not mix **HUMAX** with Calcium based products.
