

ROOTS SHOOTS & FRUITS

SUPERZYME

Beneficial Fungi & Bacteria
FOR GROWING HEALTHY PLANTS

As nature intended

SOIL HEALTH · PLANT HEALTH · YOUR HEALTH

SUPERZYME™

GUARANTEED ANALYSIS

Contains: *Bacillus subtilis*,
Pseudomonas putida, *Trichoderma*
koningii, *Trichoderma harzianum*
plus enzyme complexes.

Superzyme contains beneficial fungi and bacteria which when introduced to your garden enhances soil life. Soil is a living entity; billions of organisms live in the soil and form dynamic relationships. A healthy soil is one where all the organisms the plant requires are present and functioning with the correct ratio of predator to prey; increasing plant survival and vigour, growth and production.

BENEFITS

- Improves seedling survival
- Stimulates root growth
- Promotes plant growth and yield
- Promotes flowering
- Promotes a healthy root system

APPLICATION

Superzyme™ can be applied to ALL crops. Always mix Superzyme™ with clean water and spray on soil and plants in late afternoon with thoroughly clean apparatus not used for chemicals.

House Plants: 28 grams per 4L water.

Vegetables and Large Plants: 40-50 grams per 4L water.

Soil – Garden and Lawn: 50 grams per 1000sq. feet

STORAGE AND DISPOSAL

Store in a cool dry place, away from chemicals and dispose of ethically. Wear personal protective clothing, avoid contact to skin and eyes. In case of contact immediately flush skin and or eyes with water. Seek medical attention if irritation persists.

Keep out of reach of children.
