

MOBILIZER®

PRODUCT INFORMATION

MOBILIZER is a concentrated liquid ORGANIC extract designed to mobilise and naturally chelate the macro and micro elements in the soil.

MOBILIZER transforms and stores fertiliser nutrients into easily available forms.

MOBILIZER mobilises Calcium, Phosphorus, Potassium, Magnesium and trace elements, thus increasing their availability when injected into irrigation systems.

MOBILIZER is known to aid in leaching Sodium out of the soil.

The most pronounced effects of **MOBILIZER** are obtained when using it during the growing season and mainly in early season soil treatments followed with post emergence foliar sprays.

GUARANTEED ANALYSIS

Total Product Basis	%w/v
Fulvic Acid	3%
+ Amino Acids	

COMPATIBILITY

Always perform a compatibility test before mixing anything with **MOBILIZER**. **MOBILIZER** can be used with fertilisers including Calcium, biological materials, hormones and non selective herbicides.

CAUTION: DO NOT MIX MOBILIZER with Copper.

WARNING

May be harmful if swallowed.
Causes mild skin irritation.
Causes eye irritation.

PRECAUTIONS

Keep out of reach of children. Read label before use. Wash hands after handling.

MOBILIZER®

Directions and General Recommendations

SOIL APPLICATION

Apply **MOBILIZER** at 3 – 5 Litres per hectare through drip irrigation before flowering. Repeat as needed after flowering throughout the season.

FOLIAR APPLICATION

Apply **MOBILIZER** at 1 - 2 ml/ 1L of water and spray on to the foliage of the plants. Repeat as needed. **MOBILIZER** can be applied with most farm chemicals and fertilisers.

ALL FIELD CROPS (grain crops, pastures, flowers, etc...): Apply 1 - 2 Litres per hectare of **MOBILIZER**. Repeat the application every 6 weeks.

ALL VEGETABLE CROPS:

Apply 1 - 2 Litres per hectare of **MOBILIZER** before flowering and repeat once every 10 - 14 days.

POTATOES & CARROTS:

Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

GREENHOUSE CROPS: Apply 2 - 3ml/ Litre of **MOBILIZER** at any stage in the season. **MOBILIZER** can be applied to Hydroponic tanks at a rate of 1L / 1000L in tank A and 1L / 1000L in tank B. Check pH of water before applying **MOBILIZER** and apply product accordingly.

APPLES, POME & STONE FRUIT:

Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

FRUIT TREES & AVOCADOS:

Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

KIWIFRUIT: Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

TABLEGRAPES: Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

WINEGRAPES: Apply 1 - 2 Litres per hectare of **MOBILIZER** at any stage in the season.

MOBILIZER is best applied when plants are in an active growing stage. **MOBILIZER** may be used at any time throughout the season. For best results and more specific recommendations, contact Roots, Shoots & Fruits.
